Additional Company Details

Please include any additional information that you would like us to know about your participation in the festival or the information/files you submitted.

Our new Flat Fee Royalty means that you no longer need to worry that as you grow you end up paying more. We've moved that expense from variable to fixed which means you can grow to profit faster and easier.

Our Fees are clearly laid out for you and you get to decide which services you need and how much that will cost.

Our unique shop designs helped our franchisees recover faster from the COVID shutdowns, with minimal physical disruption, allowing them to reopen quickly and operate at maximum capacity while safely working with all the added hygiene precautions.

We know that buying a franchise is not just about buying a brand or a system, those are important, but we also understand it's really about investing in your future. That is why we designed MVP Modern Barbers help you get there faster.

Our business model and training allow you to get up and running fast with less capital invested (compared to many other industries) and our clear and simple fee structure help you keep more of what you earn.

We like to think of it as a franchise designed for the franchisee! We get to help you turn your dreams into reality.

MVP Modern Barbers will help you not just with the details of opening but we stick with you after opening by using our 12 week Fast Start Coaching program. We'll show you how to become a central hub in your community, a meeting place, a place that cuts hair but also serves a higher purpose and ultimately MVP Modern Barbers can help you become a vital, active part of your community.
