DEAR FUTURE TOUCHLESS MASK STATION PARTNER

CONGRATULATIONS on taking the first step towards launching your own business. We can assure you that you're not alone. Many Canadians dream of owning their own profitable business and only a small percentage take the action necessary to secure their future.

For those who take action comes success, freedom and an income which may have never been dreamed possible!

The Touchless Mask Station opportunity allows our partners the ability to create a new income. The time is now to get in on this once in a lifetime chance to help out your local community and get well compensated for your efforts.

The greatest part of all is working to protect the efforts that so many have fought for against the spread of COVID-19. Masks are a globally recognized weapon in the fight and you are providing the solution to local businesses and the loved ones that frequent them.

In this Start-up Guide we have detailed a step by step blueprint on how you can take your own financial wellbeing into your own hands. In this guide you will discover:

- Why the Touchless Mask Station is the solution businesses are searching for
- How health officials advice and public orders have shifted to support mask wearing as the new normal
- The patented and smart technologies of the Touchless Mask Station set it apart as industry leading
- Masks on a roll - profit meets efficiency
- Locations that need the Touchless Mask Station right now

We know that you want to learn more...
So please turn the page and enjoy.

Here's to your success, Cypress Vending Corporation.

WHY MASKS?

"COVID-19 is a serious health threat."

– The Government of Canada

"We are recommending, strongly recommending the use of [a] facial covering, non-medical, in that time so as to prevent any further transmission to others."

– Dr. David Williams, Ontario's Chief Medical Officer of Health

"If you can't predict whether you can maintain that two-meter distance, then it's recommended that you wear the non-medical mask or facial covering."

– Dr. Theresa Tam, Chief Public Health Officer of Canada

"Wearing a mask is something that we should get used to."

– Dr. Bonnie Henry, Provincial Health Officer, BC

"The widespread wearing of face masks could go a long way toward reducing coronavirus transmission rates and might help control a second wave of the virus."

– WebMD

"Everyone should wear a cloth face cover when they have to go out in public, for example to the grocery store or to pick up other necessities."

– US Centers for Disease Control

"WHO has updated its guidance to advise that to prevent COVID-19 transmission effectively in areas of community transmission, governments should encourage the general public to wear masks"

– World Health Organization

WHY NOW?

By following the advice of public health officials, Canadians have helped to flatten the curve, reduce the strain on our healthcare system and to reach a point where our economy can begin to function again. Going forward, all Canadians should consider the actions they can take to stay healthy and prevent the spread of COVID-19 in Canada. Measures to reduce COVID-19 in the community are especially important as some areas begin to lift economic restrictions.

Entrepreneurs can be a part of the solution:

In challenging times there are always Canadian entrepreneurs who have identified opportunities and taken action to contribute to a solution. Today, the challenge is controlling the spread of COVID-19.

Across Canada, businesses and government are resuming operations. People are leaving their homes and traveling to their places of work, retail stores, schools, public institutions, and places of worship. In doing so, each person assumes a degree of risk and it is our job as entrepreneurs to provide solutions to those risks and offer smart, timely, responsible solutions.

The Touchless Mask Station is the right solution. By making it convenient and affordable for consumers to access masks while out, you can be a part of the solution while tapping into the demand for a much-needed product.

A NEW NORMAL

COVID-19 has brought about enormous changes to our society, changes that will persist for years to come. The threat of the virus is now ahead of us in the form of a potential second wave. Every responsible business in Canada is turning its attention to protecting employees, contractors, and customers.

EXPERIENCE A NEW BUSINESS OPPORTUNITY!

SIMPLICITY

The simplest businesses are usually the most successful. The Touchless Mask Station is a model that can be easily duplicated. Add more stations and increase your cash flow – It's that simple!

HIGH DEMAND

The demand for personal protective equipment like masks and gloves is on the rise. We are in the right place at the right time responding to this demand from Canadian consumers and locations.

MASS APPEAL

Personal protection and health & safety products appeal to all groups of people. Provide them with exactly what they want and watch your business thrive.

TIMING

Your timing has to be right. The demand for personal protective equipment coupled with new government rules and laws makes the timing of this opportunity perfect.

TAX ADVANTAGES

Now you can enjoy the tax write-offs that were previously only used by corporations. Your car, gas, insurance, home office, phones, computers, entertainment expenses and more can now become tax deductions.

CUSTOM BRANDING

Touchless Mask Stations can be designed with your businesses logo & branding, making them a natural fit at the entrance of any location.

FULLY AUTOMATED BUSINESS

Touchless Mask Station customers pay up front. No collections, no receivables or payment plans all cashless transactions go directly to your bank account. No risk of theft, no bank deposits or cash tracking.

FLEXIBLE HOURS

You choose the hours that you would like to visit your accounts. No need to fight rush hour or work shifts. We believe you should design your business around your ideal lifestyle.

NO EMPLOYEES

Your Touchless Mask Stations are your employees. They never ask for a raise, rarely call in sick and are willing to work 24 hours per day, 7 days per week!

RESIDUAL INCOME

Your Touchless Mask Stations are a route of automated salesmen working for you while you carry on your normal daily activities. The closest thing to residual income you will ever find.

WIRELESS REMOTE MONITORING

QUICK & EASY TO RESTOCK

200 MASKS PER ROLL

CLOUD BASED REMOTE MONITORING

The Touchless Mask Station uses remote online monitoring of individual machines and tracks sales in real time. Access every aspect of your business on the cloud using a laptop, tablet or smartphone from wherever you have an internet connection. You are able to monitor each machine's performance as well as product sales.

RESTOCK YOUR MACHINES ON LOCATION EXACTLY WHEN NEEDED WITH ONLY THE REQUIRED INVENTORY

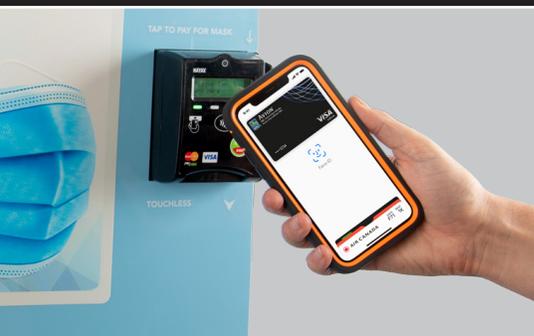

FULLY CASHLESS "TAP TO PAY" SALES SYSTEM

Canada is moving rapidly towards being a cashless society, with up to 85% of Canadians reporting that they make almost all purchases using cashless payment methods. Our system is user friendly and highly advanced, accepting all major credit cards, debit, Apple Pay, Android Pay, Google Wallet, Fitbit Pay, Samsung Pay and is easily upgradeable to accept future payment methodologies.

The Touchless Mask Station does away with cash entirely, no more bank deposits, no more fake coins, no complicated or easily jammed mechanical systems and most importantly, your machines are no longer the target of highly destructive theft attempts.

PROUD COMMUNITY PARTNERS

Food Banks Canada is launching a special \$150M appeal to help ensure that food banks can continue their critical work as the COVID-19 pandemic continues.

In support of this appeal, for every Touchless Mask Station ordered, business owners can donate \$5, per machine per month to help Canadian's in need.

Each participating Touchless Mask Station machine will proudly display the Food Banks Canada, Covid-19 Response Fund logo to let customers know that when they are making the choice to mask up, they are also making the choice to support food banks in their local community.

Locations across the nation are seeing the benefit of this partnership and are opening their doors to host a Touchless Mask Station machine to ensure that neighbours living with food insecurity have enough to make it through this pandemic.

Customers love the idea of this program and make repeat purchases knowing that this program is making a difference.

July 1st, 2020.

Dear partners of Cypress Vending,

This year Cypress Vending made an incredible commitment to Food Banks Canada, and the 1.1 Million visits that food banks across the country receive every month. For every touchless mask station ordered, business owners can donate \$5/month/machine payment to Canadians in need. This is an extraordinary commitment, and we are so proud to be working with them.

This type of program doesn't happen in isolation. It requires the support of businesses like yours, who help to get the products in front of consumers – providing them with the opportunity to purchase a product with a purpose.

Thank you for supporting this campaign and ensuring the success of the program that will provide enormous support to Canadians in need.

Sincerely,

Carolina Macias

A Canada where no one is left behind

TOUCHLESS MASK STATION MACHINE EXCHANGE PROGRAM

All new for 2020, the Go Nourished Smart Market is a high capacity food and drink vending machine equipped high definition video advertising, interactive touchscreen display and a cashless tap to pay system.

1:1 MACHINE EXCHANGE

2 years from the delivery of your Touchless Mask Station, we will offer you a \$1000 credit* to exchange 1x Touchless Mask Station towards the purchase of 1x state-of-the-art Go Nourished Smart Market, all new for 2020!

The experts have spoken—masks are here for the foreseeable future, 2-3 years is what we can expect. After this, the culture has been built and masks are here to stay. Cold and flu season, outbreaks, or new strains will all require masks being worn by the general public.

In the age of information, we see daily news articles with various angles on the pandemic and how we might, one day, get back to "normal." Some of this news may cast doubt on the longevity of mask culture and we understand that this influence can cloud the waters from what mainstream experts (Health Canada, US CDC, WHO, etc.) have made clear: a viable vaccine is years away, masks are here to stay.

We do not share concerns about the long term viability of the mask and PPE business generally but we do know that savvy entrepreneurs are always looking to the future, always look for change and always have an exit strategy before investing. For that reason we are pleased to introduce our machine exchange program.

*Credit is non-transferable and must be used within 1 year of its availability. Credit is created upon receipt of each Touchless Mask Station returned. Machines must be presentable and in good working order. 1:1 machine exchange based on total purchased number of Touchless Mask Station units.

FREQUENTLY ASKED QUESTIONS

Q: I love the idea of joining you as a partner! Do I have to quit my job?

A: No, owning Touchless Mask Stations can be started as a part time business. We suggest you build your route until the income meets or exceeds your current salary. At this point, you make the decision to move into full time business. The important thing is that you are now in control.

Q: Do I need a truck or any special equipment?

A: No, you do not need more than your car and a cell phone to get started. Once you build your business to a larger scale you may consider having a company vehicle to service your accounts.

Q: Where do I purchase personal protective equipment (masks) for my Touchless Mask Station?

A: We will assist you by including PPE masks based on your start-up package. We can then get you registered with suppliers who you will order your product direct at the best prices, with no third party mark-up. Orders are received within a few days to ensure stock arrives on time. There is no "middle man" and you save money with the best possible wholesale pricing. Your orders can be placed online or via fax or with a customer service representative by phone.

Q: What product goes in my Touchless Mask Station?

A: This proprietary Mask Station holds a specially designed roll of 200 masks. Designed to dispense 1 at a time and are easily available for your staff or customers to remove.

Q: Do you offer in house financing?

A: Yes! We offer financing for expansion stations once you have reached the Platinum level. At this level you will receive the best re-order pricing and a great finance rate.

Q: How quickly can I get started?

A: Once you have submitted your application and are approved as a partner, we will schedule your equipment package and delivery date. In just a few weeks, you'll be set up to start running your own small business!

STEPS TO GET STARTED WITH

MASK STATION

By now, you probably find the Touchless Mask Station opportunity to be a very interesting proposal. You have considered the advantage of having a new income stream in a high-demand industry.

We are considering applications for partners/operators in key areas across Canada. Past business experience is not as important to us as a great attitude and serious drive to succeed.

PHASE 1 APPROVAL PROCESS

1. Review all of your provided Touchless Mask Station program material.
2. Write down any questions that you have about the program.
3. Submit a confidential application
4. Your Mask Station rep will contact you to review all of your questions and to discuss your application.
5. Your application will be considered by the Mask Station selection committee.
6. Once approved, your Mask Station rep will contact you to complete the necessary paperwork.

PHASE 2 BUSINESS START-UP

1. Your equipment order is reserved in our production line.
2. We assist you with product supplier registrations.
3. Equipment freight arrangements are made.
4. Training & promotional materials are sent to you.
5. Your equipment is delivered.

**WELCOME TO THE TOUCHLESS
MASK STATION TEAM!**
